Subject: Microsoft Settlement

To: The District Court of the United States of America
Attn: Honorable Judge J. Fredrick Motz

Dear Judge Motz,

I disagree with you, as to YOUR rejection of the proposed settlement that Judge Thomas Penfield Jackson court had arrived at.

I do not believe that the Corporation known as Microsoft should have been sued for anti-trust violations's in the very first place. I know of not one single industry that has done as much as Microsoft, to advance the education of millions of peoples within these United States of America, and peoples throughout the entire world.

There are however many Corporations within these United States that clearly demonstrate, and factually have, a monopolistic position as to market share....Southwest Bell, Frito Lay division of Pepsico Inc. just to mention a few. Perhaps if you truly want to pursue anti-trust as a Judge, visit your local grocery store and simply go to the chip section and see just how many competitors you have. I think you will find Frito vs Frito vs Frito...

Also instead of pursuing a Corporation like Microsoft. which in my opinion should not have been done in the first place; why not pursue a better criminal justice system. Talk about a disgrace to the American Citizenry.... our legal system is absolutely an abortion of legal justice, and I am not speaking of anti-trust suits, I am speaking of the common everyday criminal act...of the murders, or the rape, of robbery, of the freedom that many criminals receive in the courts within these United States of America!

Let your talents be used in solving the problem of the citizen. Let's get back to basics Judge.

Someone in Gov't needs to provide a better way to communicate with the Gov't., why not spend some time with Bill Gates and develop a system in which the citizenry can vote, communicate, state their opinions, make observations, suggest solutions to our (suppose to be) government.

Let not one man have one voice, but rather have one man supported by many voices.

Thank You,
David H. Baur Sr.
